

Insect Killer Regular Model 20W

Rs. 4000(GST Extra)

This fly zapper attracts flies and insects by mimicking the light they see from flowers or plants. Using a UV-A bulb, the flies are attracted to the light and fly towards it - resulting in them being electrocuted by the grid inside the device. This ensures the flies are killed immediately, allowing your space to be fly-free in no time.

To enable the fly zapper to be wall or ceiling mounted easily, this regular fly killer comes with a FREE hanging chain. Simply attach the device to any wall or ceiling, and allow the fly zapper to kill the flies quickly! Once the fly zapper has successfully killed the flies, you'll want to remove them regularly. Using the built-in removable tray, simply sweep the dead flies into the bin using the FREE cleaning brush to ensure the device is left as hygienic as possible

Positioned on the floor level will be more powerful for attract insects - it's hanging option available
