

## Pasta Cooker Electric

**Rs. 12900(GST Extra)**

The pasta cookers are an adaptation of a fryer, using similar stainless steel enclosures. Typically, two “fryer” units are placed side by side, and one side serves as the cooker and the second as a means of washing away excess starch. Automatic fryer lift baskets are used to lower and raise the baskets, so that cooking time is controlled. The basket of pasta is then placed into the second water bath for rinsing and holding, and a swing-away faucet is used to rinse away the starch.

### Technical Specifications

Dimension in MM (L X W X H) 450X530X450mm

Power 4KW

Temperature 50-110°C

Voltage 220-240V/50-60Hz

Weight in Kgs 12.8Kg

08 May 2024 - Price Valid For 15 days

No 55, Sri Ram Nagar, Bharathiar University Post, vadavalli, Coimbatore - 641 046. Phone: 9489110117
