

Salamander Grill Adjustable Electric

Rs. 38300(GST Extra)

An electric salamander grill uses high power heat elements to generate grill temperatures. These grills work by radiating heat rather than bringing food into direct contact with a conducting hot plate (like in a char grill or a griddle). Temperature can be easily controlled by adjusting the dial and also by varying the shelf position of the cooking rack to bring the food closer to the heat source.

Technical Specifications

Color	Satin Finish
Power in Watts	2400W
Temperature	0°C to 300°C
Weight in Kgs	28
Dimension in Inches (L X W X H)	19X19X21

02 May 2024 - Price Valid For 15 days
