

Electric Pizza Oven Single 16x24 With Stone Analog Controller

Rs. 28600(GST Extra)

A pizza stone is to distribute heat evenly across the pizza base & other baked items to make it more crisp & tempting. The porous nature of the stone used to extract the moisture and make it crispier. Stone holds the heat for a long time therefore very energy saving. Less of electricity is consumed. Elegant, compact with a fine exterior steel finish, thermostatically controlled for better efficiency & accuracy.
