

Commercial Curd Churner

Rs. 39000(GST Extra)

Commercial Curd Churner is a well built powerful machine that can churn 10 Litres of curd and water at a time to produce butter. It also features an in-built timer that will let you precisely control the operation time as it is vital in churning process.

The AISI 304 food grade SS made food contact parts enhances the durability while preventing rust formations. The powerful 1/2 HP motor pulls the operation with ease. The machine also has a drain pipe that aids in collecting the butter milk.
