

## Pouch Sealing Machine Vacuumed

**Rs. 71500(GST Extra)**

Band sealers are very versatile, therefore it can seal thermoplastic bags of any size, length, and thickness up to 500 micron. The maximum seal width is 10mm. The variable conveyor belt speed is adjustable to accommodate materials varying in thickness. The conveyor belt can be raised or lowered and in some models, even tilted to the desired angle. It is equipped with an imprinter, or an ink coding system to record words, dates, and codes with each seal. Band Sealers speeds are considerably faster than intermittent types of sealing, it is ideal for projects which require higher production rates and minimal space and costs.
